

USB-C Multi-Port Hub

Mini Docking Station for Laptops & Chromebooks

Have a laptop or Chromebook with a USB-C port? The USB-C Multi-Port Hub provides the power of a desktop docking station in an ultra-portable size. Expand your reach. Connect to hard drives, printers, smartphones, cameras and more with the Hub's 3 high-speed USB 3.0 ports. Watch your movies and videos on monitors and flat screen TVs (up to 4K) using the HDMI port. Move photos with dual SD Memory Card Readers; or connect to local area networks with the Hub's 1-Gigabit Ethernet port.
