

Power Pux

The Worlds First Power Supplied Trolling Motor Quick Release Bracket

What you will need

1. 8 Gauge insulated Wire. (Enough to reach from the batteries to the bow Puck)
2. Your own stainless hardware for mounting the Puck to the deck. (Style depends on the mounting method that you choose based on the boat design and composition.)
3. BoatLife LifeSeal Caulking
4. Acetone
5. Clean Rags
6. Lead Pencil
7. Wire cutters
8. Wire Crimping Tool
9. Heat gun or small Butane Torch
10. $\frac{3}{4}$ " inch Hole Saw or Spade Bit

NOTE: Some boat designs may require a Fish Tape or similar device to pull wires through inaccessible compartments.
